Re: Growth Screening Program

Date: February 6, 2018

According to 28 PA Code, Chapter 23.7, our school nurses are required to evaluate students height and weight. This assessment is completed "to determine the pattern of growth for each student so that their weight and height can be interpreted in light of their own growth pattern rather than those of their classmates". If you are interested in obtaining your child's height and weight information and/or their Body Mass Index (BMI) please contact the school nurse. Informational letters will no longer be sent home unless requested by a parent/guardian.
